Scenario：

You are a fitness enthusiast. In daily life, you need a good eating habit to control your weight, but at the same time you have to go to class on time, so sometimes you don't have time to prepare your own meals. At this time, you want to use the college menu options app to help you realize this idea, so that you can pick up the meal after class and still have what you want because you can match it yourself.

Task 1：Create your own menu of proteins, freshwater compounds, and vitamins.

Task 2：Call a friend of yours, Zhang, and tell him about the app to see how he created his own meal.

Task 3: Tell Zhang, then give him 5 / 5 rating and make a comment.

Note:
What changes you should make to your application (min 3 Things):
1. The menu on the application should be updated with the school dining menu
2. There are a few options
3. When choosing a restaurant, the location of the restaurant is not displayed, only the name.
What you need to keep the same for your application (min 3 Things):
1. Personalized menu
2. It can be paid with USC Card.
3. You can save money, just like a mobile bank.
